

PRESS RELEASE

**Versatile Security announces partnership with ipsCA**

*Versatile Security and ipsCA announce partnership to bring the vSEC:CMS smart card management system to the Spanish market.*

**Stockholm, Sweden, April 24, 2012** – Versatile Security Sweden AB announces the partnership with ipsCA, Spain. Through the partnership, ipsCA will market and sell [Versatile Security's Smart Card Management System, vSEC:CMS](#) in the Spanish market.

“It’s exciting that Versatile Security is now active also in Spain, especially since it’s through such a skilled and experienced partner as ipsCA. The chances of entering a new geographical market successfully increases significantly when doing so through a strong partner that knows the market and its players well. Versatile Security now offers its innovative smart card management solutions to the Spanish market, combined with the expertise and knowledge of ipsCA and its staff” said Per-Anders Fjärdsäter, CEO and President of Versatile Security.

“Versatile Security is a manufacturer of card management systems which offers a very wide range of products that permits us to adapt the best digital identity solutions to our customers’ needs no matter the size of the company; their products are intending for big companies as well as for small ones. This allows us to focus in the solution for our customers instead of thinking whether product is suitable for the size of the company or not. Solutions are better when size does not matter.” said Juan Carlos Pascual, Consulting & Services Manager at ipsCA.

**About ipsCA**

[Ips Certification Authority \(ipsCA\)](#) is not only a pioneering Certification Authority in Europe, but also a leader in Electronic Signature and Electronic Billing tools. ipsCA has many years of experience and a wide range of solutions. The solutions stand out for their design, their fast implementation and their compatibility with Digital Identity and Digital ID systems.
