Versatile Security Announces Partnership with Dot Origin

Versatile Security and Dot Origin announce partnership to bring the vSEC:CMS smart card management system to the UK market.

Stockholm, Sweden, November 6th, 2012 – Versatile Security Sweden AB announces the partnership with Dot Origin. Through the partnership, Dot Origin will market and sell Versatile Security's Smart Card Management System, [vSEC:CMS](#) in the UK market.

“The vSEC:CMS solution fits very well with our range of cards, readers and software from the world's premier vendors in the smart card security market. Being an independent specialist distributor in this market enables us to offer expert advice, technical support and education to both resellers and end users, thus helping them to build complete working solutions. For us, Versatile Security plays an important part in this landscape, as they have created a card management system that is both powerful and cost-effective.” said Dan Isaaman, Joint CEO, Dot Origin.

“I am pleased to announce that Versatile Security has entered into a partnership with Dot Origin. It is a great opportunity for Versatile Security to increase visibility and presence in the UK. Dot Origin is a very competent partner, always aiming to offer smart card and identity based security products that are in the forefront of industry development. Together we will be able to make sure customers in the UK have all the tools they need to make sure their IT operations are secured in an efficient and convenient way.” said Joakim Thorén, CEO, Versatile Security.

About Dot Origin

Dot Origin is a value-added distributor of smart card, RFID and NFC products and solutions from vendors including ACS, Gemalto, HID, Identive and NXP. Headquartered in the UK with a US subsidiary, the company has been operating successfully in this market for over 10 years, and has a wealth of knowledge and experience which is used to advise customers, provide and develop solutions, and offer comprehensive technical support.

Dot Origin maintains a wide portfolio of products in its warehouses, including smart cards, readers, development kits and accessories, held in stock ready for fast shipment across Europe, North America and beyond.
