

Versatile Security Announces vSEC:CMS T-Series Version 3.4

Versatile Security announces the awaited release of version 3.4 of the flagship product vSEC:CMS T-Series –the market leading security device management system.

Stockholm, Sweden, September 22nd, 2014 – Versatile Security Sweden AB announces the release of vSEC:CMS T-Series version 3.4. The new version includes several important new features, the most prominent being:

- Support for Entrust CA
- Operator Server Key Store to improve self-service capabilities
- Support for Microsoft SQL Server 2014
- Additional PIV smart card features
- Extended set of supported smart cards

To learn more about lifecycle management of security devices such as smart cards and to download the evaluation version of vSEC:CMS T-Series, visit Versatile Security online at:

“One of the most interesting new features in this version is that we now can issue, load and maintain certificates issued by an Entrust certificate authority as part of the smart card lifecycle processes in vSEC:CMS. We have seen an increased frequency of the requirement to support the Entrust CA as we do more and more government business. I am excited about working closer with the products and services team from Entrust going forward,” said Joakim Thorén, CEO, Versatile Security.

About Versatile Security

Versatile Security is a leading IT solutions provider in the identity and access management space with focus on easy deployment of smart cards with innovative smart card management systems. Our customers are organizations that demand high security and ease of use. Our state of the art solutions enable our customers to securely authenticate, issue and manage user credentials, such as smart cards, more cost efficiently than other solutions on the market.

Our mission is to provide solutions that are affordable and easy to integrate, thus allowing organizations of all sizes to implement high levels of security. We also offer first class support, maintenance, and training. Our customers include: HSBC, Tieto, Raiffeisenbank, IMF, Hornbach, Daimler, Alstom, European Commission, Qualcomm, Saudi Aramco and Cleveland Clinic Abu Dhabi.

Our products and services can be bought and delivered worldwide by use of an extensive reseller network and through the Versatile Security web site: <http://versatilesecurity.com>
