

Versasec Announces Partnership with Yubico

Yubico To Host Webinar with its First Card Management System Vendor

NEW YORK and PALO ALTO, June 27, 2016 – [Versasec](#), the leader in smart card management systems, announced today it has partnered with [Yubico](#), the leading provider of simple and open online identity protection. Versasec is Yubico's first Card Management System (CMS) partner and will announce support for Yubico's YubiKey in Versasec's next vSEC:CMS release later this month. Versasec and Yubico will host a [webinar](#) on July 13, 2016, 10:00 a.m. PT to discuss their joint solution.

The YubiKey is a USB hardware device that supports multiple authentication and encryption protocols, including smart card, OTP and FIDO Universal 2nd Factor (U2F). With this new integration, Versasec vSEC:CMS users can quickly authenticate themselves with a simple touch when the YubiKey is acting as a smart card in Personal Identity Verification (PIV) mode. YubiKeys work on Microsoft Windows, Mac OS X, Linux operating systems, and major browsers with no driver or client software needed.

"Yubico is a powerful force for enterprises, offering them a scalable solution that protects their corporate data and systems," said Joakim Thorén, CEO of Versasec. "This partnership lets our joint customers securely authenticate, issue and manage user credentials in the evolving global security landscape."

[Versasec's solutions](#) are affordable and easy to integrate, so organizations of all sizes can implement high levels of security. Versasec offers first-class support, maintenance, and training. Versasec's products and services are available worldwide through its extensive reseller network and through the Versasec website: <https://versasec.com>.

"The high level of security, versatility to work in a variety of environments, and simplicity of the YubiKey is why it is loved by the world's largest organizations," said Jerrod Chong, VP Solutions Engineering, Yubico. "This is a significant, first partnership for Yubico in the Card Management System space with a proven company. Versasec's incorporation of YubiKey smart card PIV support into the latest release of vSEC:CMS is a strong solution for their user base."
