

[Versasec](#), an Identity and Access Management (IAM) provider, helps businesses manage their access-enabling devices, including smart cards, mobile devices, tablets and PCs, virtual devices and RFID/NFC. The company is global, with offices in six countries spanning two continents and with customers all over the world. The Versasec team is an agile and fast-growing group of professionals.

We are seeking a permanent, full-time, enthusiastic, UK-based techie with strong communication skills as:

DELIVERY ENGINEER

Job Description:

- You will immerse yourself in our software products, customers, and markets, and demonstrate solid knowledge and passion for IT-security issues
- As part of the support team, you will be trained to become an expert on our core product the vSEC:CMS product suite
- You will be expected to perform product testing in collaboration with our R+D team
- You will be expected to write administration and technical documentation pertaining to our core product vSEC:CMS
- You will be expected to assist customers and partners with support related issues pertaining to our core product vSEC:CMS
- You will be expected to assist the sales team to present product demonstrations to potential customers and partners

The ideal candidate will have the following:

- Technical prowess with a strong affinity for IT-security and PKI matters
- A degree in computer science, data science or another technology-related field, with exhibited proficiency in prior work
- Outstanding verbal and written English language communication skills
- Demonstrated enthusiasm in customer interactions and wiliness to support customers' technical requests
- Professional and credible demeanor, creativity, and comfortable giving technical presentations and webinars
- Strong English language proficiency and ability to work in an international, multi-cultural team
- Ability to travel and meet customers onsite

Working at Versasec:

- This is a permanent full-time work in a highly innovative high-tech enterprise with modern working environment
- We offer a small enterprise environment with open communication, outstanding team spirit, and an international and open-minded team
- This position is based in Portsmouth, England
- Pay is commensurate with background, experiences and results
- Versasec provides a creative workplace, challenging work, and outstanding skills and job growth potential

Qualified candidates should send CV by e-Mail (pdf-files) to the attention of Mrs. Yvonne Moebius at job@versasec.com.
