

PRESS RELEASE

Versatile Security announces partnership with Gemalto

Stockholm, Sweden, October 6, 2010 – Versatile Security Sweden AB today announces a technology partnership with Gemalto, the world leader in digital security. vSEC:CMS® from Versatile Security is now fully integrated with Gemalto Protiva™ .NET smart card. Moreover vSEC:CMS® Operator Token, which runs the vSEC:CMS® software, is embedded in [Smart Enterprise Guardian](#) (SEG) product, another security solution from Gemalto.

“To address the growing needs of companies in stronger authentication, we are pleased to offer a solution with Versatile Security. It provides an intuitive user interface that simplifies the issuance and management of Gemalto Protiva™ .NET smart cards together with a set of features that SMBs in particular need,” said François Lasnier, Senior Vice President of Online Authentication at Gemalto.

“We are very excited about the opportunity to work together with Gemalto to develop and deliver powerful identity solutions based on smart card technology. We believe that this partnership will greatly benefit our existing customers and open up new possibilities, especially in the SMB market,” said Per-Anders Fjärdsäter, CEO and President of Versatile Security.

About Versatile Security

Versatile Security Sweden AB is an IT security provider with highly scalable and customisable solutions for businesses, government bodies, healthcare and financial services that have high security demands. The company offers both server and client side solutions that enable organisations to securely authenticate, issue and manage user sessions along with providing legally binding digital transactions and verification capabilities.
