“I am proud to announce that Versatile Security will be exhibiting at Gitex Technology Week 2012, being held in Dubai. This is one of the world’s largest trade shows for the technology sector and Versatile Security will be exhibiting in the Card Tech sector of the Network and Security pavilion, where a demo booth also will be kept showcasing the vSEC:CMS T-Series. This is a step in the process of increasing Versatile Security’s global activities and presence, and it’s a great opportunity for the company to present the uniqueness and strengths of our products to a broad audience,” said Per-Anders Fjärdsäter, CEO and President at Versatile Security.

About the Gitex Technology Week

Launched in 1981, [GITEX](#) is the ICT business gateway to the Middle East, North Africa and South Asia (MEASA) region. Focused on providing exhibitors with high ROI through direct business opportunities with decision makers, GITEX has maintained its position as the industry’s trend setting authority. It is the Number 1 event in the MEASA region bringing together more than 138 000 ICT professionals from 144 countries.

About Versatile Security

[Versatile Security](#) is a leading IT solutions provider in the identity and access management space with focus on easy deployment of smart cards with innovative smart card management systems. The company’s customers are typically organizations that demand high security and ease of use. State of the art solutions enable the customers to securely authenticate, issue and manage user credentials, such as smart cards, more cost efficiently than other solutions on the market.

Versatile Security’s mission is to provide solutions that are affordable and easy to integrate, thus allowing organizations of all sizes to implement high levels of security. First class support, maintenance, and training is also offered. Customers include: HSBC, Tieto, Centric, Raiffeisenbank, TradeRiver, European Commission, Svensk Exportkredit and IKEA.

The products and services can be bought and delivered worldwide by use of an extensive reseller network and through the Versatile Security web site: <http://versatilesecurity.com>
