

PRESS RELEASE

## New Remote Smart Card Software from Versatile Security

*A brand new product from Versatile Security allows smart cards to be securely shared remotely. Check out vSEC:ID Multi Terminal on <http://versatilesecurity.com>!*

**Stockholm, Sweden, February 19<sup>th</sup>, 2013** – Versatile Security Sweden AB announces the release of [vSEC:ID Multi Terminal](#) version 1.0. By providing secure remote access to hardware credentials such as smart cards, the vSEC:ID Multi Terminal application enables smart card security for complex workstations with several terminals as well as cloud based and virtual environments. Because the communication is intercepted at such a very low level of the communication stack, the application is not dependent on the type of smart card used and therefore works perfectly with many organizations legacy systems.

“I am very excited about the new opportunities that this brand new product gives us. The vSEC:ID product suite is all about taking PKI and secure tokens and making this technology a useful and important part of our customers infrastructure. Simply put, vSEC:ID provides a security infrastructure that enables our customers to do more efficient business.” said Joakim Thorén, CEO, Versatile Security.

### About Versatile Security

[Versatile Security](#) is a leading IT solutions provider in the identity and access management space with focus on easy deployment of smart cards with innovative smart card management systems. The company’s customers are typically organizations that demand high security and ease of use. State of the art solutions enable the customers to securely authenticate, issue and manage user credentials, such as smart cards, more cost efficiently than other solutions on the market.

Versatile Security’s mission is to provide solutions that are affordable and easy to integrate, thus allowing organizations of all sizes to implement high levels of security. First class support, maintenance, and training is also offered. Customers include: HSBC, Tieto, Centric, Raiffeisenbank, TradeRiver, European Commission, Svensk Exportkredit and IKEA.

The products and services can be bought and delivered worldwide by use of an extensive reseller network and through the Versatile Security web site: <http://versatilesecurity.com>
