

PRESS RELEASE

New Signature Server Software from Versatile Security

Adding digital signature security to an organization's work flows can be easy and efficient. The vSEC:ID Server, the easily integrable software solution that enables PKI operations, is getting a major update: check out vSEC:ID Server 1.6!

Stockholm, Sweden, February 27th, 2013 – Versatile Security Sweden AB announces the release of [vSEC:ID Server](#) version 1.6. New features in this version include: x64 Server Support (2008 R2), Enveloping PKCS#7 for encryption, PKCS#11 2.30 & SNMP support.

“The need for organizations to integrate digital signature security in their workflows is increasing significantly but is often ignored because of complexity and cost issues. The vSEC:ID Server is a fast to configure and cost effective software solution that enables PKI operations such as digital signature generation, signature verification, encryption, decryption and certificate validation. The vSEC:ID Server has many interfaces, making it easy to integrate into any web application. It can also be offered as a complete packaged solution with our vSEC:ID Client application.” said Joakim Thorén, CEO at Versatile Security.

“The vSEC:ID Server is a corner stone in all of our cloud based services and our online demos on [versatilesecurity.com](#) show off some of the refined PKI-based features it can provide. We have now put more effort into packaging vSEC:ID Server so customers easily can use the same advanced features in custom server applications and enjoy the benefits of high performance security.” said William Houry, Business Development Executive at Versatile Security.

About Versatile Security

[Versatile Security](#) is a leading IT solutions provider in the identity and access management space with focus on easy deployment of smart cards with innovative smart card management systems. The company's customers are typically organizations that demand high security and ease of use. State of the art solutions enable the customers to securely authenticate, issue and manage user credentials, such as smart cards, more cost efficiently than other solutions on the market.

Versatile Security's mission is to provide solutions that are affordable and easy to integrate, thus allowing organizations of all sizes to implement high levels of security. First class support, maintenance, and training is also offered. Customers include: HSBC, Tieto, Centric, Raiffeisenbank, TradeRiver, European Commission, Svensk Exportkredit and IKEA.

The products and services can be bought and delivered worldwide by use of an extensive reseller network and through the Versatile Security web site: <http://versatilesecurity.com>
