## **Versatile Security and Cips Informatica Announce Partnership**

*Versatile Security and Cips Informatica announce a partnership to introduce vSEC:CMS and vSEC:ID products to the Italian market.*

**Stockholm, Sweden, March 19, 2013** – Versatile Security Sweden AB announces a partnership with Cips Informatica. Through the partnership, the vSEC:CMS and the vSEC:ID product suites from Versatile Security will be introduced to the Italian market via Cips Informatica’s network of resellers.

“The use of passwords to authenticate and access IT networks is becoming increasingly irrelevant due to the risks associated with passwords. With growing awareness of these risks companies are looking to deploy stronger two-factor authentication to mitigate these risks. We at Cips Informatica are leading the drive in the Italian market to provide the solutions necessary for companies to embrace stronger authentication mechanisms,” said Mario Menichetti, CEO, Cips Informatica.

“Versatile Security’s product suite provides the best of breed solutions for company’s choosing to deploy strong two-factor authentication. We are very excited about introducing these products to the Italian market,” added Silvio Signori, CTO, Cips Informatica.

“Cips Informatica is a very dynamic company that is actively promoting new technology by organizing regular workshops and events. Together with Cips Informatica we will make sure partners in Italy have all the tools they need to easily and efficiently implement secure smart card solutions for customers in the region,” said Joakim Thorén, CEO, Versatile Security.

### **About Cips Informatica**

Cips Informatica was founded in 1991 to meet the needs of companies in the field of marketing along with consulting in the design, implementation and management of complex IT systems. In particular, Cips Informatica focuses on the ICT sector in which it provides technical and commercial support.
