

PRESS RELEASE

Versatile Security and Logosoft Announce Partnership

Versatile Security and Logosoft announce a partnership that enables Logosoft to offer vSEC:CMS, the innovative smart card lifecycle system from Versatile Security, to customers in Bosnia and Herzegovina.

Stockholm, Sweden, April 23rd, 2014 – Versatile Security Sweden AB announces a partnership with Logosoft, a systems integrator based in Sarajevo, Bosnia and Herzegovina. Through the partnership, the market leading smart card management system [vSEC:CMS](#) from Versatile Security is offered to Logosoft's customers in the region.

“As part of our services in the authentication portfolio, we've been extensively reviewing solutions that enable fast, easy-to-use and reliable implementations of smartcard management platforms. Versatile Security products proved to provide all the requested features, along with additional functional features, competitive pricing and support options. Having completed many successful projects in the PKI and 2FA domain, we look forward to sharing our experience with existing and new enterprise clients in offering a product line that seamlessly integrates in their IT workflows and provides better TCO. Our partnership with Versatile Security will certainly prove a winning scenario in this respect and we look forward to future challenges,” said Damir Dizdarevic, COS, Logosoft.

“After having worked with a large number of partners in our extensive worldwide channel network we're getting quite good at spotting winners – Logosoft is a perfect fit for our offering with its solid technical know-how and dominant positioning in a growing market in a very interesting region,” said Joakim Thorén, CEO, Versatile Security.

About Logosoft

[Logosoft](#) d.o.o. is one of the leading systems integrator companies in Bosnia and Herzegovina. Aware of the fact that the success of our business directly depends on the satisfaction of our clients, we are oriented towards offering highest quality services based on a powerful and modern infrastructure, together with the knowledge and expertise of our pre-sales, sales and engineering staff. Our services offering range from ISP-related services like end-user triple-play, to converged integration services that include SMB and enterprise IT design, implement and support. Our projects cover every aspect of IT infrastructure - from base networking, data center and systems design to advanced/personalized applications and services. We pride ourselves with building a successful long-term relationship with our clients, fully supporting their business needs by providing the best IT solutions.
