Versatile Security Releases vSEC:CMS K2.0

Versatile Security announces the release of vSEC:CMS K-Series version 2.0. The most popular vSEC:CMS smart card tool ever - just got even better. Download it today!

New York, NY, December 11th, 2014 – Versatile Security announces the release vSEC:CMS K-Series version 2.0. This version of K-Series has a new user interface and new and useful features such as support for new smart cards, multi-user support and Windows 8 support. Download it today from www.versasec.com.

“I’ve always been very fond of the K-Series application; it is fast, simple and powerful. The application is now even faster and easier to work with as you stay in one window, and we’ve added tons of new powerful features. Also with the new migration Wizards, it is possible to in a quick way migrate to the system and thereby replace old systems with vSEC:CMS K-Series,”
said Joakim Thorén, CEO, Versatile Security

About Versatile Security

Versatile Security is a leading IT solutions provider in the identity and access management space with focus on easy deployment of smart cards with innovative smart card management systems. Our customers are organizations that demand high security and ease of use. Our state of the art solutions enable our customers to securely authenticate, issue and manage user credentials, such as smart cards, more cost efficiently than other solutions on the market.

Our mission is to provide solutions that are affordable and easy to integrate, thus allowing organizations of all sizes to implement high levels of security. We also offer first class support, maintenance, and training. Our customers include: HSBC, Tieto, Raiffeisenbank, Hornbach, Daimler, Alstom, European Commission, Qualcomm, Saudi Aramco and Cleveland Clinic Abu Dhabi.

Our products and services can be bought and delivered worldwide by use of an extensive reseller network and through the Versatile Security web site: <http://www.versasec.com>
