Versatile Security announces the release of vSEC:CMS T-Series version 4.0. The leading smart card management system has undergone a major upgrade. Download an evaluation copy today!

New York, NY, March 2nd, 2015 – Versatile Security announces the release of vSEC:CMS T-Series version 4.0. The new version includes a long list of new features that has been designed closely with the large community of active users. Here are some of the most important new features:

- New client-server architecture using SOAP/HTTPS
- New temporary smart card workflows
- Support for the Symantec MPKI certificate authority
- Brand new operator user interface
- Card layout preview in smart card issuance
- DESFIRE support
- New smart card administration tools
- Further expanded the already long list of supported smart cards

Download your evaluation copy today from www.versasec.com.

“The brand new clean interface guides operators through complex tasks in a simple and straightforward way –this is how all enterprise IT functions should be delivered. I am very excited about the opportunities that this version opens up, it is a big step forward,” said Joakim Thorén, CEO, Versatile Security.

About Versatile Security

Versatile Security is a leading IT solutions provider in the identity and access management space with focus on easy deployment of smart cards with innovative smart card management systems. Our customers are organizations that demand high security and ease of use. Our state of the art solutions enable our customers to securely authenticate, issue and manage user credentials, such as smart cards, more cost efficiently than other solutions on the market.

Our mission is to provide solutions that are affordable and easy to integrate, thus allowing organizations of all sizes to implement high levels of security. We also offer first class support, maintenance, and training. Our customers include: HSBC, Tieto, Raiffeisenbank, Hornbach, Daimler, Alstom, European Commission, Qualcomm, eBay, Saudi Aramco, IMF, L’Oreal and Cleveland Clinic Abu Dhabi.

Our products and services can be bought and delivered worldwide by use of an extensive reseller network and through the Versatile Security web site: <http://www.versasec.com>
