

Microsoft Entra ID

Secure access for a connected world

Microsoft Entra ID (formerly known as Azure Active Directory) provides a complete identity and access management (IAM) solution with integrated security to manage and protect all your users and data.

Microsoft Entra ID is a multicloud identity platform that integrates with Microsoft 365, Windows, Intune, thousands of SaaS applications, and your hybrid identity environment to meet the needs of today's enterprise.

Microsoft Entra ID offers rich signal and security controls that empower employees, partners, and customers to be productive by providing seamless, secure sign-in experiences to applications and services while protecting identities from threats. Secure user credentials by enforcing strong authentication and Conditional Access policies. Efficiently managing identities ensures that the right people have the right access to the right resources.

How Versasec vSEC:CMS and vSEC:CLOUD orchestrates phishing-resistant credentials for Microsoft Entra ID

Versasec seamlessly integrates and orchestrates multifactor authentication of phishing-resistant credentials for Microsoft Entra ID certificate-based authentication, domain authentication, FIDO, document signing, S/MIME, encryption, and more. Versasec solution integrates directly with Microsoft Entra ID and Active Directory to help organizations manage their credentials in the cloud and on-prem.

Customer Benefits

- Single pane-of-glass management for all credential types lifecycles, including FIDO, RFID, and PKI.
- Integrate and orchestrate HSMs, Physical Access Systems, Smart Card Printers, APIs for custom-developed integrations, MIM for batch management, and more.
- Streamline automation and orchestration for optimal IAM. Integrate other Microsoft products for IAM: Microsoft Entra ID, Microsoft Active Directory, Microsoft ADCS, Microsoft SQL Server, Azure SQL, and Windows Hello for Business.
